ENVIRONMENTAL POLICY

Vulcan Engineering is committed to maintaining high standards with regards to environmental issues and strives to satisfy industry demands along with the community at large.

Consistent with our policies towards quality and safety, we are developing a separate Environmental Manual that will be incorporated into the Vulcan Management System. All employees will be versed in the requirements of this manual and it will form part of the employee induction program.

Vulcan recognises the need for pollution control and constantly strives for achieving cleaner air and soil within our environment.

A handwritten signature in blue ink, appearing to read "G Vukusich", is written over a horizontal line.

Gordon Vukusich
Managing Director
